Revision 25

**Fee sheet for the  
BREEAM International In-Use Scheme**

---

<b>BRE Global</b>	<b>Fee Sheet</b>	Doc No:	FS021
		Revision:	25
<b>BREEAM International In-Use</b>		Date:	11 May 2020

BREEAM In-Use (BIU) is a certification scheme for the sustainability assessment of buildings throughout the operational stages of their lifecycle, as set out in Scheme documents SD096 and SD5070, and Technical Manuals SD221, SD6063 and SD243.

The fees applicable in this document are applicable to BREEAM International In-Use for Commercial and Residential.

National Scheme Operator (NSO) fees may vary and are set by the NSO. For more information on the NSO fees please contact the NSO directly. More information about NSOs can be located at <https://www.breem.com/location/>.

The fees outlined in this document are based on the following services:

- Organisation Registration
- Asset Measurement Registration
- Certification
- Assessor Training & Licensing

Any applicable discounts available are also outlined within this document.

All fees stated within this fee sheet will be applicable from 11 May 2020

All fees quoted in this fee sheet are exclusive of UK VAT, which will be charged at the prevailing rate.

### **Organisation Registration - Client**

To register an organisation on the BREEAM In-Use Online Platform clients must purchase an Performance Measurement credit to activate their registration (see below for costs). This acts as the first asset registration and can then be used to register the first asset measurement.

## Asset Measurement Registration

	<b>BIU 2015 Version</b>	<b>BIU Version 6</b>
Performance Measurement Credit <sup>1</sup>	£295 per asset	£500 per asset

Valid for assets registered on or after 11 May 2020 – BIU 2015 Version will close for new registrations 4 May 2021.

The Performance Measurement Credit is charged per asset. One Performance Measurement Credit allows unlimited use of the BREEAM In-Use questionnaire and dynamic scoring functionality for a period of up to twelve months and/or until the assessment is submitted for certification; whichever is sooner for one asset. Failure to renew the registration will lead to the assessment being locked and inaccessible. Asset measurements can be reactivated at any time by paying the Performance Measurement Credit Fee.

## Seeking Verification and Certification

Provided an active asset measurement is registered, clients can request certification. This can be achieved by engaging with a licensed BREEAM In-Use Assessor, allocating the assessment to the Assessor for verification and paying the appropriate fees. Note: Fees paid to the Assessor are done so outside of any of the BRE systems or processes.

BRE Global licensed BREEAM In-Use assessors can be found on [Greenbooklive.com](https://www.greenbooklive.com)

---

<sup>1</sup> BRE Global reserve the right to charge additional assessment registration fees for certain types of complex assets such as shopping centres, including both public and tenanted areas.
